SwingGate HTG-A 36" ADA Passage Width

Full Height Security • Matches SecureTurn Full Height Turnstiles • Electric Strike

SwingGate HTG-M

(Shown in Powder Coated Finish)

Self Closing Hinge (included)

Heavy Duty self closing hinge included with each gate.

Monitored Latch (included)

Electric strike lock for integration with card readers, push buttons, and more

Full Height Handicap Access:

Our HTG-A full height gate provides the same floor to ceiling level of security as our full height turnstiles while simultaneously providing an ADA compliant clear opening. This model features a spacious 36" opening to provide ample entry space for wheelchairs, deliveries, toolboxes, and more. The HTG-A is a great choice for entry and exit access control via card swipe, push button, other means when handicap access is still required.

Materials and finishes available in:

- Hot Dip Galvanized Steel
- Powder Coat (custom colors available)

Matching SecureTurn Full Height turnstiles in this series:

SecureTurn HT431 Standard Passage 31"

SecureTurn HT439 Wide Passage 39"

SecureTurn HT448 Extra Wide Passage 48"

SecureTurn HT431T Tandem Size for double passage

About Hayward Turnstiles:

Hayward Turnstiles is a family owned manufacturer and distributor of turnstiles and security gates in Connecticut with over 50 years of precision manufacturing success.

Here at Hayward, customer service and a stress-free ordering environment are our primary goals. The members of our sales team act as your personal access control specialists. They take the time to learn about your specific project needs to ensure that you are matched with the products that best fit your job requirements.

To aid in your decision making process, we offer access control advice, design assistance, same-day quotations, and can even coordinate installation by putting you in contact with an installer from our national network of certified partner installers. We go the extra mile so you don't have to.

Need Installation?

Our Hayward Turnstiles access control specialists can coordinate installation with someone from our nationwide database of certified partner installers. Our partner installers are willing to provide you with an entire turn-key quote where they will handle purchasing, delivery, installation, and integration for you.

Applications:

The SwingGate HTG-A is the perfect solution for anyone looking to harness the security of a full height entry product without sacrificing handicap accessibility. This model is also great if you have an entrance that is frequented with deliveries, entrants with toolboxes or luggage, or any other item that would not regularly fit through a full height turnstile. It's vertical steel pickets makes it perfect for high security engagements or unmanned entrances.

Product Finish:

Available in both galvanized or powder coated (custom colors available) to match our full height turnstiles.

Design & Construction:

- Designed as an ADA compliant solution for perimeter security
- ADA compliant passage width
- Fully welded exterior components
- Built from heavy gauge materials that meet ASTM standards
- Built with sturdy steel vertical bars
- Minimally exposed, tamper proof hardware

Gate Operation:

- Gate automatically closes with included self closing hinge
- Field selectable electronic strike lock (24VDC) included

- Strike lock can be used mechanically or electronically
- Gate can be locked and unlocked using a key
- Strike lock can be set to lock (fail secure) or unlock (fail safe) the gate during power failure and emergencies (fail secure is standard orientation)
- Voltage for electronic strike can be taken from nearby SecureTurn turnstile power supply (inquire before wiring)
- Monitored latch included to detect lock/unlock status and open/close status

Options:

- Push buttons (wired or wireless)
- Kick plate (for compliance in certain states)
- Card reader mounting plates
- Mounting clips for mounting to neighboring turnstiles

Additional options available upon request
